

Parallel Parking Guideline

- **RIGHT** turn signal to indicate you are parking
- Pull beside the parked car **2-3 feet** (mirror-to-mirror). **STOP**
- Turn the steering wheel one full rotation to the **RIGHT**
- Shift to **REVERSE**
- Check your blind spot. Look over your right shoulder.
- Slowly **REVERSE** until the passenger side mirror of your vehicle lines up with the bumper of the parked car. **STOP**
- Turn the steering wheel one full rotation to the **LEFT**
- Turn on **RIGHT** signal again
- Check your blind spot. Look over your right shoulder.
- Slowly **REVERSE** until the passenger side mirror lines up with the side of the car you are parallel parking behind. **STOP**
- Turn the steering wheel all the way to the **LEFT**
- Slowly **REVERSE** until you are aligned with the parked car. **STOP**
- Turn the steering wheel one and a half times to the **RIGHT** (to straighten the steering wheel)
- Shift to **DRIVE** and slowly drive forward to “close the gap.” **STOP**
- Shift to **PARK**
- Apply Emergency Brake
